Step 3: Then search for IOT Watson platform then click on create

Step 4: Then click on add device and give the device type and necessary details then click finish

Step 5: Finally, IOT Watson platform is successfully created

## Screenshots of IBM Watson IOT platform and device:

The screenshot shows the IBM Watson IoT Platform dashboard. The main heading is 'Browse Devices'. Below it, there are two tabs: 'All Devices' (selected) and 'Diagnose'. A message states: 'This table shows a summary of all devices that have been added. It can be filtered, organized, and searched on using different criteria. To get started, you can add devices by using the Add Device button, or by using API.' Below this is a search bar labeled 'Search by Device ID'. To the right of the search bar is a 'Device Simulator' toggle switch. The table below has the following columns: Device ID, Status, Device Type, Class ID, and Date Added. The table contains one row with the following data: Device ID: tamil324, Status: Disconnected, Device Type: tamil23, Class ID: Device, Date Added: Nov 9, 2022 9:54 AM. At the bottom of the table, it says 'Items per page: 50 | 1-1 of 1 item'. The bottom of the screenshot shows the Windows taskbar with the search bar and various application icons.

Device ID	Status	Device Type	Class ID	Date Added
tamil324	Disconnected	tamil23	Device	Nov 9, 2022 9:54 AM
