

Create a database in cloudant DB

Team ID	PNT2022TMID07841
Project Name	Smart waste management system for metropolitan cities

Step 1: login into IBM CLOUD account

Step2: On the top left corner click on RESOURCE LIST

Step 3: Search for Database option then click on drop down arrow

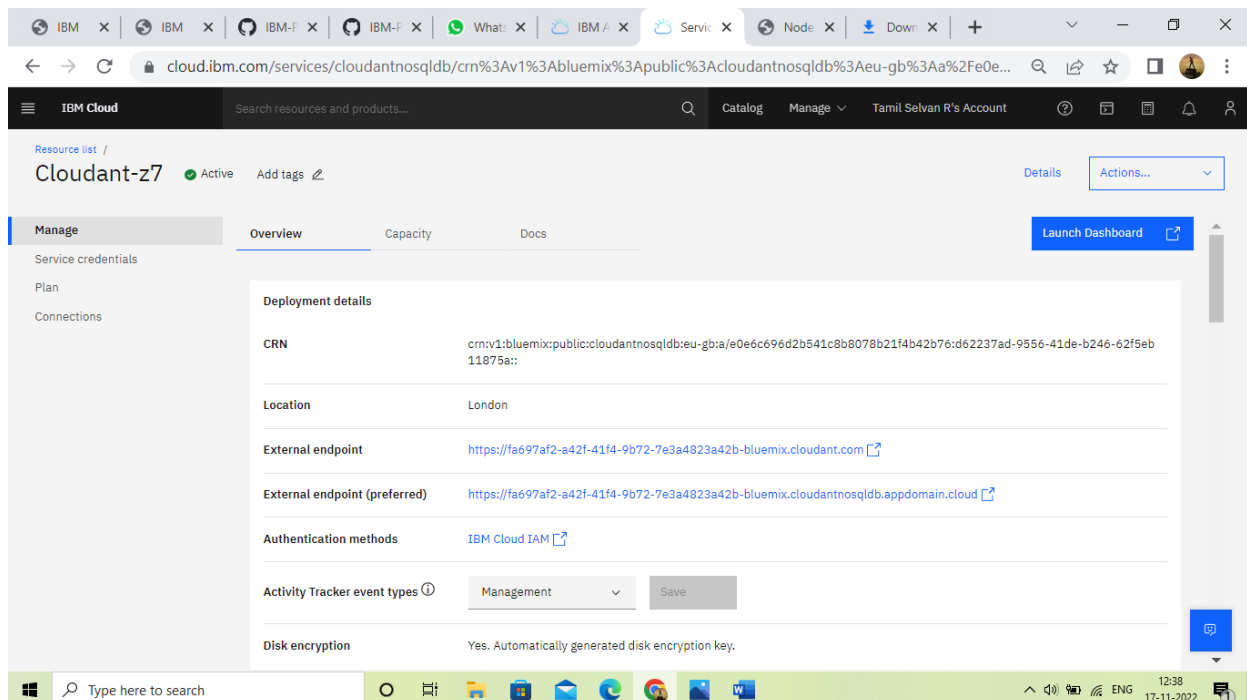

Step 4: Then click on cloudant account available

Step 5: Now, cloudant window appears then click on launch dashboard on right corner

Step 6: click on create database on right corner then provide the name for database and check the -partitioned -recommended for most workloads>option then click on create

Step 7: Finally, cloudant DB was successfully created.

Screenshots of cloudant account:

The screenshot shows the IBM Cloudant dashboard for a database named 'pnt2022tmid07841'. The interface is in a light blue theme. On the left, a dark blue sidebar contains navigation links: Monitoring, Databases, Replication, Active Tasks, Account, Support, and Documentation. The main content area is titled 'All Documents' and shows a list of documents. Since there are no documents, it displays a large cloud icon and the text 'No Documents Found'. The top navigation bar includes the database name, a 'Document ID' dropdown, and a 'Create Document' button. The bottom status bar shows 'Showing 0 documents' and 'Documents per page: 20'. The Windows taskbar is visible at the bottom of the screen.
